

TRAIN – Key note lecture

Thursday, August 11th 2016, 4:30 pm
TWINCORE seminar room 002

Immunotherapy of head and neck tumors – light on the dark side of the force?

PD Dr. Dr. Dr. Oliver Seitz
MKG-PALAIS
Mund-, Kiefer- und Gesichtschirurgie Hanau

Who is Oliver Seitz?

Dr. med. Dr. med. dent. Dr. med. habil. Oliver Seitz studied human medicine and dental medicine in Würzburg and Frankfurt. He qualified as a cranio-maxillo facial and plastic surgeon. During this time he cooperated with several basic research groups such as the Stem Cell Group headed by Prof. Ulrike Köhl at the Institute of Transfusion Medicine in Frankfurt. While working as a senior physician and speaker of the Head and Neck Oncology Unit of the Johann Wolfgang Goethe University of Frankfurt, PD Dr. Dr. Dr. Oliver Seitz and Prof. Ulrike Köhl studied immunology of head and neck cancer in patients. In 2012 he obtained his *venia legendi* (authorization to teach) and became a private lecturer for cranio-maxillo facial surgery. Currently he is working in his own medical center in Hanau (MKG-Palais) cooperating with several hospitals, including the MHH.
