

Manual Intranet access

Our intranet is the binding information platform for internal messages and laboratory safety. Inform yourself periodically!

Login

For access you need

- user name (surname in small letters; if there is more than one employee with the same surname at TWINCORE, the first letter of your first name will be attached)
- password (was sent to you by the administration via email)

- The login screen appears. Enter user name and password. If you forgot your password, you can request a new one below the „login“ button.
- After your login the Intranet home page opens - menu color of the Intranet is red. You can't see the Internet content in the Intranet, but you can switch easily between Intranet and Internet.

Switch Internet-Intranet

After your login, your individual authorisations for the Internet and Intranet take effect. Therefore, it could happen that the content you can see in the Internet and Intranet is different from your colleagues' content.

Change password

By entering your email address or user name you will receive instructions for resetting/ change of your password via email.
